

RACING LICENCE COURSE

Snetterton, 25th - 27th Feb 2026

OVERVIEW

Racing is at the heart of Ferrari's DNA, and to prepare the next generation of Ferrari Challenge drivers we are organising an exclusive and intensive 3-day driving course at Snetterton. Over the 3 days you will complete your initial ARDS test, then an advanced ARDS course followed by 5 races in an open top Mazda MX5.

The course is designed to take you from a novice driver to someone who can safely navigate a race circuit and start on the grid of the Ferrari Challenge UK Series.

Part one of the course introduces you to the motor circuit and safe navigation, including how flags and marshalling work at a circuit.

This essential qualification provided by the sport's governing body, the Motorsport UK (MSUK), is recognised throughout the UK. It includes both academic and practical assessments, ensuring your suitability and helping to maintain safety at circuits around the country.

During your 3-day course you will be taught driving theory, racing techniques including; overtaking; grid starts; rolling starts as well as the procedures for the various stages of a race, car setup methods and race rules – everything you need to obtain your race licence.

We look forward to welcoming you to Snetterton and to starting you on your racing journey.

WHAT'S INCLUDED

£15,000 (+ VAT)

- 3 nights' accommodation, breakfast, lunch at the circuit and evening meal dinner with the other drivers
- ARDS test & Advanced ARDS Course on Day 1
- Instructor coaching throughout
- 5 Races over 3 days
(All marshalling and race organisation covered)
- Hire car throughout
(Excludes damage and track insurance)
- Garage access & drivers suite
- You will be required to bring your own helmet and HANS device. There will also be a limited amount of loan equipment available on request, please contact your Official Ferrari Dealer for details and availability.

Please note: drivers over the age of 65 are required to undertake a medical examination prior to completing the course and all drivers are required to have an optician to complete their registration form.

14:00 - 16:30	Backup time		

FERRARI 296 CHALLENGE

The Ferrari 296 Challenge, which made its debut in the 2024 Ferrari Challenge, is the ninth model fielded by Ferrari in its single-make championship.

In line with its predecessors, the 296 Challenge is derived from the 296 road-going Berlinetta, which, thanks to its unique mix of performance, agility, and ease of handling, is the perfect platform for a racing application.

To meet the increasingly extreme requirements of Challenge client drivers, Ferrari made a series of modifications to the original model to optimise the overall package for the specific demands of the track.

The end result is an extreme car that raises the bar further, setting new benchmarks in absolute performance, as well as consistency and smoothness throughout each session.

ENGINE	TRANSMISSION AND GEARBOX
Type: V6 120°, Turbo, Dry sump	7-speed F1 DCT
Overall displacement: 2,992 cc	
Maximum power output: 700 CV	ELECTRONIC CONTROLS
Maximum torque: 740 Nm	TC/eDiff, EPS, ABS EVO/EBD
